About PDW

Each year, DPI holds its annual Professional Development Week (PDW), a premier learning event for digital professionals. PDW is attended by 7000+ delegates ranging from technical analysts and policy makers to senior managers and Executives who all share a common goal: self-development.

In today's rapidly evolving digital landscape, artificial intelligence (AI) has emerged as a transformative force reshaping the way government operates and delivers services.

Join us at PDW 2025 as we embark on a visionary exploration of the future of public sector AI. Together, let's think like humans, learn like machines, and chart a course towards a more inclusive, innovative, and AI-enabled future for public service.
