About PDW

At PDW2023, we will look back on the successes over the past 60 years, and we will look forward to the challenges to come for both our organizations and our affiliates. Join us for this special anniversary PDW – a walk through history, and into the future.

Our annual Professional Development Week will be held via a hybrid model on May 10-12, 2023 (virtual and in-person at the Shaw Centre in Ottawa). This event will provide important opportunities to learn, network, and connect with industry colleagues. We look forward to presenting you with a variety of keynotes and seminars that will expose you to the adaptability and transformation of the public sector community and our personal lives as well as the evolution of technology over the past 60 years.

Our seminars will focus on topics our affiliates care about, like technology and skill-building. Learn from industry leaders and colleagues on subjects like AI, Metaverse and Digital Culture.
